# ABOUT US

Dolphin Heat Transfer India Pvt. Ltd. is a distinguished manufacturer and supplier of premium heat transfer solutions. Established over 38 years ago, DHT has built a solid reputation for delivering high-quality, customized cooling products across various industries, ensuring reliable and efficient performance.

## Our Expertise

At DHT India, our team of experienced engineers employs advanced mechanical and thermal optimization techniques to design and manufacture top-tier cooling solutions. Our expertise spans across a wide range of products, including aluminum and copper-brass radiators, oil coolers, combi coolers, and locomotive radiators.

## Commitment to Quality

We prioritize environmental protection, energy efficiency, and sustainability in all our operations. Our commitment to excellence is reflected in every product we manufacture, adhering to the highest industry standards for durability and performance.

## Customer-Centric Approach

Our customer-centric approach involves providing personalized solutions and comprehensive support from initial consultation through post-sale services. We aim to build long-term relationships based on trust, transparency, and exceptional service.

# PRODUCT RANGE

- **Aluminum Radiators & Cores**

Designed with aluminum tanks for added strength and durability, our complete aluminum radiators ensure efficient heat dissipation and can withstand extreme conditions. They are suitable for all types of diesel vehicles and stationary diesel engines, offering high thermal transfer capacity and cost-effective solutions.

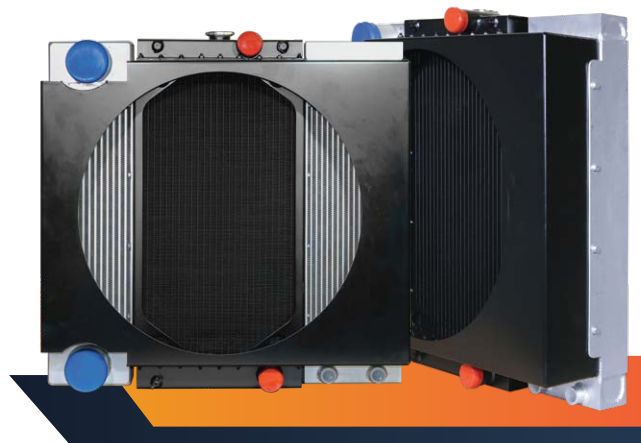

- **Plate & Bar Oil Coolers**

Ideal for trucks, off-road, and industrial applications, our plate and bar oil coolers are designed to meet OEM and international standards, suitable for high-pressure applications.

- **Combi Coolers**

Our combi coolers combine multiple cooling functions in a single, compact unit, designed for efficiency and reliability in various applications.

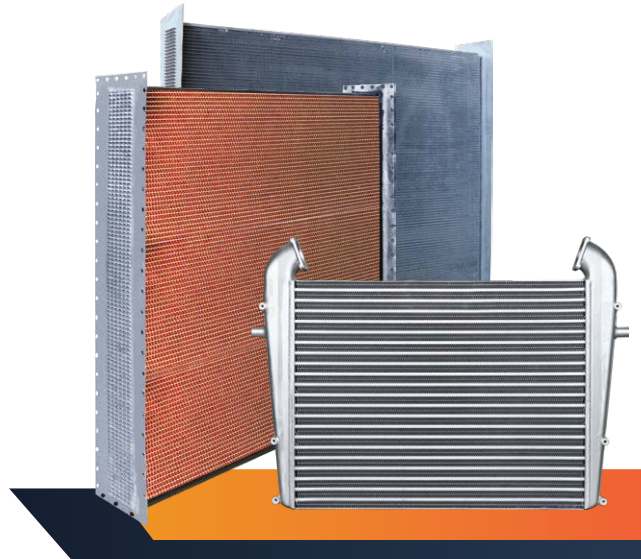

# PRODUCT RANGE

- **Custom Cores and Coolers**

We offer custom-designed cores and coolers tailored to specific requirements, ensuring optimal performance for unique applications.

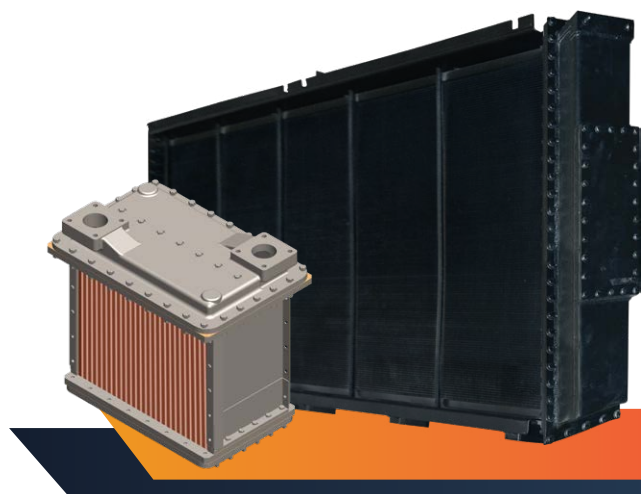

- **Copper-Brass Radiators**

Our copper-brass radiators are renowned for their durability and efficiency, suitable for a wide range of vehicles and heavy-duty equipment.

- **Locomotive Radiators**

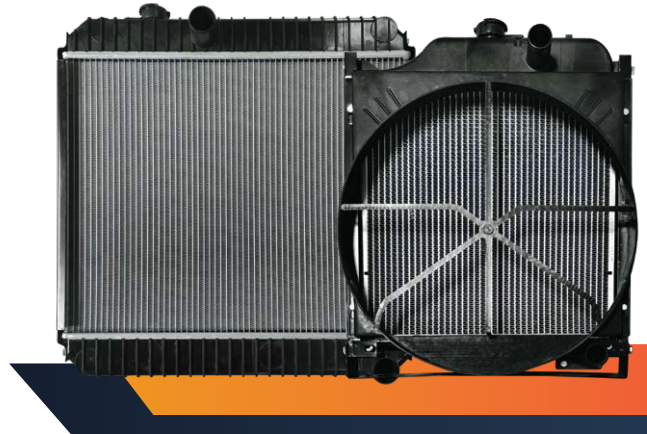

Designed for the rigorous demands of locomotive applications, our radiators ensure reliable performance and long service life.

# PRODUCT RANGE

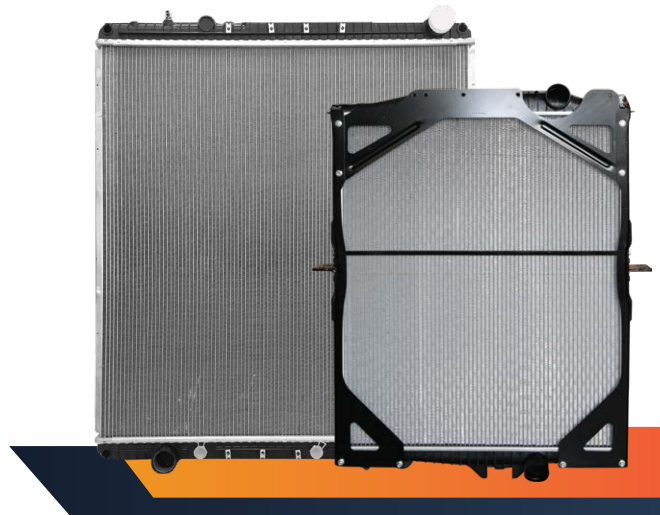

- **Earth Moving Equipment Radiators**

Built to withstand the harsh conditions of earth-moving equipment, our radiators offer robust and reliable cooling solutions.

- **Heavy Duty Truck Radiators**

Our heavy-duty truck radiators are specifically engineered to handle the rigorous demands of long-haul trucking and heavy-duty applications. They offer superior cooling efficiency, durability, and performance, ensuring your trucks operate smoothly even under extreme conditions.

- **Genset Cooling Systems**

Our genset cooling systems are engineered for high efficiency and durability, ensuring optimal performance for generator sets.

# CONNECT WITH US

## Nationwide Reach, Unmatched Service

Our dedicated sales team across India is ready to assist you with customized, engineered solutions, leveraging our extensive experience and advanced R&D capabilities.
